

# Enroll now for Spring 2010 Course: GEOG 497C - "Environmental Issues Across the Americas"

**Includes field school in  
Peru during Spring Break  
Cost \$3,400.00**

***Deadline  
to Register  
is December  
11th***

This course provides an integrative experience that allows students to see interconnections of environmental and social issues between North and South America (United States and Peru). Students will be introduced to topics such as ecotourism, environmental and economic sustainability, environmental justice, biodiversity, forest fragmentation, endangered species, and Latin American culture in an international setting.

Offered by the Department of Geography and Riparia in cooperation with the Amazon Center for Environmental Education and Research (ACEER) Foundation.
